

Here is the comprehensive framework to build a deeply researched, data-driven buyer persona, followed by the exhaustive **Persona Card Template**.

THE 4-PHASE PERSONA BUILDING FRAMEWORK

This framework moves from the individual's professional reality to their psychological drivers, contextualizes them within their company's strategy, and finally quantifies their buying probability.

Phase 1: Professional DNA (The "Who")

Data Source: The prospect's latest LinkedIn Experience section. **Objective:** Understand their career trajectory, seniority, operational scope, and past achievements to identify their day-to-day reality and KPIs. **Analysis Actions:** * Extract current and past roles to map career progression (e.g., did they move from operational recruiting to management?). * Identify the duration of their current role (tenure indicates stability or recent promotion). * Extract listed skills and specific achievements/descriptions to understand what they are officially measured on.

Phase 2: Behavioral & Mindset Signals (The "Why")

Data Source: The prospect's latest LinkedIn posts and their comment interactions. **Objective:** Uncover their true priorities, thought leadership, communication style, and hidden objections. **The "X & 12-X"**

Analysis Logic: 1. **Define X:** Select X recent posts (where $X_{max} = 7$). *Recommendation: Set $X = 5$ to balance depth and speed.* 2. **Analyze Posts (X):** Extract the core themes, tone of voice, and what they are publicly championing (e.g., company culture, tech adoption, candidate experience). 3. **Calculate & Analyze Comments ($12 - X$):** If $X = 5$, you must analyze **7 comments** left by the prospect on *other people's* posts. * *Why comments?* Posts show what they want to project; comments show how they actually interact, what they agree/disagree with, and their raw, unfiltered professional opinions. Look for patterns in how they praise, critique, or add value to peers.

Phase 3: Organizational Context (The "Where")

Data Source: The company's digital footprint (Website primary, Company LinkedIn fallback). **Objective:** Understand the business model, strategic goals, and market positioning to align the persona's individual pain with the company's macro pain. **Analysis Actions (Primary: Company Website):** * **Sitemap Crawl:** Scan the domain's sitemap to identify the core architecture. * **Targeted Page Analysis:** Extract and analyze text from the pages that most closely match these 4 strategic pillars: 1. *About Us / Leadership:* For company culture, mission, and founder's vision. 2. *Services / Solutions / Expertise:* To understand their exact value proposition and target market. 3. *Careers / Join Us:* To see what roles they are hiring for (reveals internal gaps and growth areas). 4. *Blog / Insights / Press:* To understand their market positioning and current strategic focus. **Analysis Actions (Fallback: Company LinkedIn Profile):** * **Trigger:** If the website is inaccessible, outdated, or lacks the target pages. * **Action:** Extract general details (Headcount, Industry, Specialties, Tagline). * **Apply Post/Comment Logic:** Apply the exact same **X posts and 12 - X comments** logic used in Phase 2, but applied to the **Company Page** instead of the individual. This reveals the company's public messaging and how their audience (and the prospect, if they comment) engages with it.

Phase 4: The Opportunity Score (The "How Likely")

Data Source: Synthesis of Phases 1, 2, and 3 + The predefined Offer + The ICP. **Objective:** Quantify the likelihood of this specific persona buying your specific product/service on a scale of 0-100. **Scoring Logic (Calculated LAST):** * **ICP Fit (0-30 pts):** How perfectly do their title, company size, and industry match the Merged ICPs? * **Pain & Trigger Alignment (0-40 pts):** Based on Phase 2 (Posts/Comments) and Phase 1 (Experience), do they exhibit the exact pains your offer solves? Are there recent trigger events (e.g., hiring sprees, complaining about admin work, posting about AI/RGPD)? * **Authority & Budget (0-30 pts):** Based on Phase 1 and Phase 3, do they have the decision-making power and the financial health (company growth/margins) to buy? * **Total = Opportunity Score (0-100).**

THE ULTIMATE PERSONA CARD TEMPLATE

Instructions: Copy and paste this template for every new prospect. Fill in every section. Do not omit details; if data is unavailable, explicitly state "Data unavailable, inferred as [X]".

● SECTION 1: CORE IDENTITY & PROFESSIONAL DNA

- **Full Name:** [Name]
- **Current Title:** [Exact Title]
- **Company:** [Company Name]
- **Company Size & Industry:** [e.g., 25 employees, Cabinet de recrutement IT]
- **Location:** [City, Country]
- **Tenure in Current Role:** [e.g., 2 years, 4 months]
- **Career Trajectory Summary:** [e.g., Promoted from Senior Recruiter to Managing Partner in 2022. Shows a shift from operational execution to strategic management.]
- **Core KPIs / Responsibilities:** [What are they officially measured on? e.g., Revenue generated, time-to-fill, team management.]

● SECTION 2: BEHAVIORAL & MINDSET PROFILE (From Phase 2)

- **Content Themes (From X Posts):** [What do they post about? e.g., 60% candidate success stories, 20% company culture, 20% industry tech trends.]
- **Communication Style & Tone:** [e.g., Professional but empathetic, uses emojis, data-driven, direct and concise.]
- **Peer Interaction & Values (From 12 - X Comments):** [How do they act in comments? e.g., Frequently validates posts about mental health in recruiting; pushes back on posts about "hustle culture"; asks highly technical questions about ATS integrations.]
- **Stated Beliefs / Philosophies:** [e.g., "Believes AI should augment, not replace, recruiters." "Candidate experience is the ultimate brand differentiator."]

● SECTION 3: ORGANIZATIONAL CONTEXT (From Phase 3)

- **Company Value Proposition:** [What does the company sell/do? e.g., Specialized in placing mid-level tech talent for Series B startups.]
- **Strategic Focus / Current Goals:** [e.g., Expanding into the healthcare tech sector; trying to reduce reliance on job boards.]
- **Company Culture & Vibe:** [e.g., Fast-paced, remote-first, highly competitive but collaborative.]
- **Internal Gaps / Hiring Needs:** [What are they hiring for? e.g., Hiring 3 new junior recruiters and 1 marketing manager. Indicates scaling pressure.]
- **Tech Stack / Tools Mentioned:** [e.g., Mentioned using Flatchr, LinkedIn Recruiter, and Slack.]

● SECTION 4: PAIN POINTS & BUYING TRIGGERS

- **Primary Operational Pains:** [e.g., Recruiters spending 15 hours/week on CV screening and scheduling.]
- **Strategic / Business Pains:** [e.g., Margins are shrinking because they are forced to lower fees to win mandates.]
- **Hidden Objections / Fears:** [e.g., Terrified of CNIL fines regarding candidate data; fears AI will make their recruiters feel obsolete.]
- **Recent Trigger Events:** [e.g., Posted last week about the difficulty of finding good talent; company just opened a new mandate for 50 IT roles.]

● SECTION 5: ALIGNMENT WITH OUR OFFER

- **Dream Outcome for THIS Persona:** [e.g., Wants to prove to his partners that his agency is innovative without risking compliance.]
- **How Our Offer Solves Their Specific Pain:** [e.g., Our "Recruteur Augmenté" automates the 15 hours of admin, and our "Compliance-by-Design" directly neutralizes their fear of CNIL fines.]
- **Required Proof to Convert:** [e.g., Needs to see a live demo of the CV parsing accuracy and a clear explanation of data anonymization.]

★ SECTION 6: THE OPPORTUNITY SCORE (0-100)

Calculated strictly after all sections above are completed.

- **ICP Fit Score:** [___/30] (e.g., 28/30 - Perfect title and company size, slightly outside primary IT niche but close enough).
- **Pain & Trigger Score:** [___/40] (e.g., 35/40 - High pain alignment, strong recent trigger event regarding scaling).
- **Authority & Budget Score:** [___/30] (e.g., 25/30 - Has authority as Managing Partner, but company size (25) means budget might be tight).
- **TOTAL OPPORTUNITY SCORE:** [XX / 100]

Score Interpretation & Next Action: * **80-100 (Hot):** Immediate priority. Send personalized video/voice note referencing their specific post/comment. Push for the 30-min Audit. * **60-79 (Warm):** Strong fit. Send standard personalized cold email referencing company growth and specific pain point. * **40-59 (Lukewarm):** Nurture. Connect on LinkedIn, engage with their posts for 2 weeks before pitching. * **< 40 (Cold):** Deprioritize. Does not fit ICP or lacks budget/authority. Remove from active outreach queue.

Final Strategic Note for this Persona: *[1-2 sentences summarizing the absolute best angle to approach this specific person. E.g., "Approach him not as a tech vendor, but as a risk-mitigation partner. Lead with the RGPD compliance angle in the first sentence, then pivot to the time-saving benefits for his junior recruiters."]*
